Erasmus – Slovakia

Sunday morning we started our last trip of the Erasmus-Project to Slovakia. It took nearly the whole day to drive there. We made some little breaks and ate ice cream. We finally arrived in the late afternoon at the hotel, where we left our luggage, walked a first time through the city and went for dinner at a small restaurant. In preparation for the next day we worked on our E-book and tiredly went to bed afterwards.

On our first whole day in Slovakia we had breakfast firstly and then walked to the school. There we met the students from the other countries and they showed us their school, which was really impressive, beautiful and clean. After that the Slovaks presented us 3 sportsman, we also could ask them questions. Furthermore we did some presentations for our project about our sports hero from our countries.

At 12am we had lunch in the school canteen, we don't exactly know what it was but it tasted good. The next point on the plan for today was a bit sightseeing, walking through the city and meet the major at the townhall. There we got an impressive welcoming ceremony including two singers and live music. Then the sightseeing continued with visiting the theatre and climbing up to the roof of the church. Now we got free time.

Later the Slovaks invited us to a BBQ at the school. We played some sportive games and ate altogether dinner. Then we slowly went back to our hotels and fell tired to bed.
